## PROFESSIONAL SUMMARY

Python Full Stack Trainee with strong foundations in Python, Flask, MySQL, and frontend technologies. Experienced in developing full-stack web applications, integrating backend and frontend systems, and building machine learning solutions with strong problem-solving skills.

## EDUCATION

**B.Tech in Electronics and Communication Engineering**

**NRI Institute of Technology | 2025**

Percentage: 74.47%

## EXPERIENCE

**Python Full Stack Trainee**

**Oct 2025 – Feb 2026**

*Codegnan IT Solutions, Hyderabad*

- Worked on Python Full Stack Development using Flask, MySQL, and JavaScript.
- Developed full-stack web applications for backend–frontend integration.
- Improved collaboration and problem-solving skills through team-based projects.

**Web Development Intern**

**Oct 2024 – Apr 2025**

*BIST Technologies Pvt Ltd, Remote*

- Developed responsive web applications using HTML, CSS, JavaScript, and Bootstrap.
- Used Git and GitHub for version control and collaborative development.

**Machine Learning Intern**

**May 2024 – Jul 2024**

*BIST Technologies Pvt Ltd, Remote*

- Built machine learning models using Python with preprocessing and analysis.
- Worked on prediction-based applications and model evaluation techniques.

## TECHNICAL SKILLS

**Languages:** Python, JavaScript, SQL  
**Backend:** Flask, REST APIs  
**Tools:** Git, GitHub, VS Code

**Frontend:** HTML5, CSS3, Bootstrap  
**Database:** MySQL  
**Concepts:** OOP, DBMS, Problem Solving

## PROJECTS

**REST API Development using Flask**

GitHub

*Python, Flask, REST API, JSON, Postman*

- Developed RESTful APIs using Flask for handling CRUD operations.
- Implemented GET, POST, PUT, and DELETE endpoints with JSON responses.
- Tested API endpoints using Postman for request handling and validation.
- Structured backend routes and integrated API data processing logic.

**E-Commerce Web Application using Flask**

GitHub

*Python, Flask, MySQL, HTML, CSS, JavaScript, Razorpay API*

- Developed e-commerce platform with authentication, cart, and order management.
- Integrated Razorpay payment gateway and optimized MySQL database.

**ATM Transaction Management System**

GitHub

*Python, Flask, HTML, CSS, JavaScript, Jinja2*

- Built ATM simulation system with deposit, withdrawal, and transaction history.
- Implemented secure authentication and dynamic UI rendering using Jinja2.

**Automated ECG Analysis for Heart Disease Prediction**

GitHub

*Python, TensorFlow, NumPy, Pandas*

- Developed ML/DL models for ECG-based heart disease prediction with 92% accuracy.
- Compared multiple models and selected best-performing architecture.

## CERTIFICATIONS

- Wipro TalentNext – Java Full Stack
- HackerRank – Python (Basic)
